My Dear Sir

Am an owner of the Orchids - Among the Plums -
 the other I found some confusion, two other species being
 somehow become mixed, and the sub notes of weight dis-
 played - Now I have sorted them as well as I can. Of those
 without numbers I cannot give names - nor indeed have
 time just now to determine such things. They
 are probably new for the most part. Many of the
 plants I had before so that I am well off for duplicates.
 Shall I return them to you with other things laid by
 for you.

Yours truly

John Lindley
